What Is Strategic Planning?

Strategic planning is the process by which leaders of an organization, such as a local government, determine what it intends to be in the future and how it will get there. It involves developing a vision for the organization's future and determining the necessary goals, priorities, and action strategies to achieve that vision.

Vauxhall's Strategic Plan 2023-2028 was developed in collaboration with Council, administration, and our community partners locally, and regionally. The Plan serves as a framework to guide Council and staff in the decision-making process and to direct our resources where they are needed.

Thank you to Kimberly Lyall for capturing the vision from all the information that was collected, and to everyone, that took the time to fill out the survey and attend the public meeting.
